UI UX Designer | +91 9778057175 | karthikeyankanaka990@gmail.com | Behance | Linkedin

Professional Summary

UI/UX Designer with 1+ year of experience designing enterprise websites and multi-role web platforms in Figma. Designed the complete GRO LMS ecosystem (website plus 6 role-based portals) from SRS to developer handoff. Strong in design systems, responsive layouts, and turning complex workflows into clear interfaces.

Projects

Adam Technology Website Link

- Redesigned enterprise website with a focus on usability, responsive layouts, and modern visual hierarchy
- Designed Homepage, Service Pages, Industry Pages, and Contact Us pages using Figma
- Created wireframes, mockups, interactive prototypes, and user flows before development
- Built reusable UI components and maintained design consistency across the website

MeetNex – Event Networking Platform

- Designed responsive web and mobile interfaces for event discovery, registration, networking, and attendee engagement.
- Conducted user research and competitor analysis to understand user needs and improve the overall experience.
- Created user flows, wireframes, mockups, and interactive prototypes using Figma.
- Designed key experiences including event discovery, event details, booking, networking, profiles, and dashboards.

GRO LMS – Learning Management System Link

- Designed the full ecosystem: public website plus University, Institution, Admin, Tutor, Student, and Parent portals.
- Converted the SRS into user flows, wireframes, and prototypes for Gro screens covering dashboards, courses, timetable, attendance, assignments, exams, fees, payments, and academic progress..
- Built a shared component library so all portals and roles look and behave consistently.
- Simplified complex academic workflows through clear information architecture and role-specific dashboards.

Professional Experience

UI/UX Designer, Adam Finastra, Kozhikode AUG 2025 – Persent

- Designed Adam Technology website + responsive pages for enterprise websites in Figma, including Homepage, Service, Industry, and Contact pages, for the group company Adam Technology.
- Turned business requirements into wireframes, mockups, and interactive prototypes before development.
- Built and reused UI components within the design system to keep the site visually consistent.
- Delivered specs and assets to developers and supported implementation until release.

UI/UX Designer, Keatonx Media Limited, Thrissur Jun 2025 – AUG 2025

- Created wireframes, high-fidelity designs, and prototypes for responsive web and mobile applications.
- Built user personas, journeys, and information architecture to guide design decisions.
- Worked with developers to keep designs feasible and accurate in build. (Role ended due to company restructuring.)

Technical Skills

- Wireframing
- Interactive Prototyping
- User Flows
- Information Architecture
- Responsive Web Design
- Visual Design
- Design Systems
- Component Libraries
- Interaction Design
- Developer Handoff
- Figma
- FigJam
- Adobe XD
- Photoshop & Illustrator
- HTML & CSS (Basic)

Education

B.Com, Bharathiar University (2021-2024)

Certification: UI/UX Design Training, ToggleMax
